

# SOIL IS A RESOURCE TO BE PROTECTED

The soil is a **limited** and **not a  
renewable** resource

- 
- It's limited because only **36%** of the emerged lands is **cultivable**.
  - It's not renewable because it cannot reform in a short time.

# CAUSES OF SOIL DEGRADATION

**POLLUTION**  
**[A LANDFILL]**

**CONSUMPTION**  
**[OVERBUILDING]**

EROSION

DESERTIFICATION

# Possible Solutions

**TERRACING**

**RECLAIM: PLANT  
TREES**

All materials, videos and images are for didactic purposes only.

# And ... what can we do for the soil?

- Brainstorming
- Teamwork → recycling – worksheet →  
OUR EFFORT TO SAFEGUARD THE SOIL
- Make a poster.
